

Drivers Take Care!

Don't allow this to happen to one of our children!

Parents have reported that one of our children tripped and fell in School Lane this morning and gashed his head. Instead of stopping, a car sped up and drove past him while he was trying to pick himself up off the road. Fortunately apart from a bump on the head and being very badly shaken, he is fine, but it could have been *so much worse*.

Please drive with care!
