

Tick the images where you can find the perimeter.

Explain why you can't find the perimeter of some of the images.

Use a ruler to measure the perimeter of the shapes.

The lengths will vary due to the printing.

Whitney is measuring the perimeter of a square.

She says she only needs to measure one side of the square.

Do you agree?

Explain your answer.

Yes, Whitney is correct because the sides of the square are all equal and all she needs to do is times it by 4.

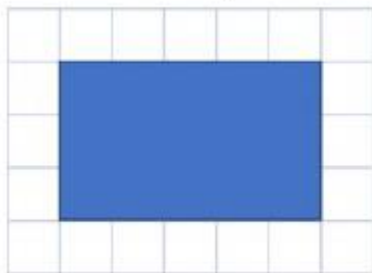

Amir is measuring the shape below.
He thinks the perimeter is 7 cm.

Can you spot his mistake?

Amir only measured half of the perimeter (the length and the width). He now needs to times his answer by 2.

Calculate the perimeter of the shapes.

16 cm

16 cm

12 cm
