

TARGET To solve number puzzles involving decimals.

A

In an addition pyramid, pairs of numbers are added together to make the number above them. (See page 109.)

Copy and complete the addition pyramids.

B

In an arithmagon the pair of numbers at the end of each side are added together to give the number between them. (See page 22.)

Find the missing numbers.

C

In a magic square the sum of each row, column and diagonal is the same. (See page 23.)

Copy and complete the magic squares.
