

Good Morning Year 3.

We hope that you are enjoying your home learning tasks this week. We are busy at school getting your classrooms ready for your return on Monday. We know it will feel like a long time since you have been at school and that you may be feeling a mixture of emotions including both excited and maybe a little anxious about getting up for school on Monday. We will be here to help settle you back into our normal school routine and we are really looking forward to seeing you all. Work hard today! We are so proud of you for all the home learning you have completed.

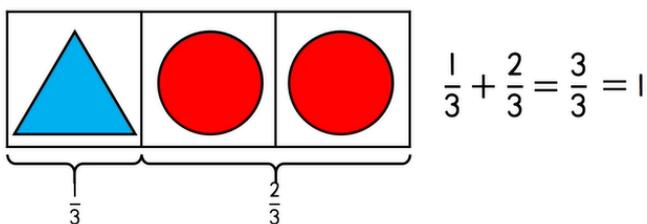

Have a tremendous Thursday!

Maths

In Maths, we are going to look at how fractions can be added together to make a whole.

For example, $\frac{1}{2}$ and $\frac{1}{2}$ make 1. Or $\frac{1}{4}$ and $\frac{3}{4}$ make one whole.

Here is another example using thirds:

We would like you to watch this 6-minute video from White Rose Maths:

<https://vimeo.com/418151644>

Then please complete the [Thursday Maths Worksheet](#) which is on the WFH webpage.

Then mark your answers using the [Thursday Maths Answers](#). Good luck!

[TTRockstars](#)

Play your 10 games in the Garage today!

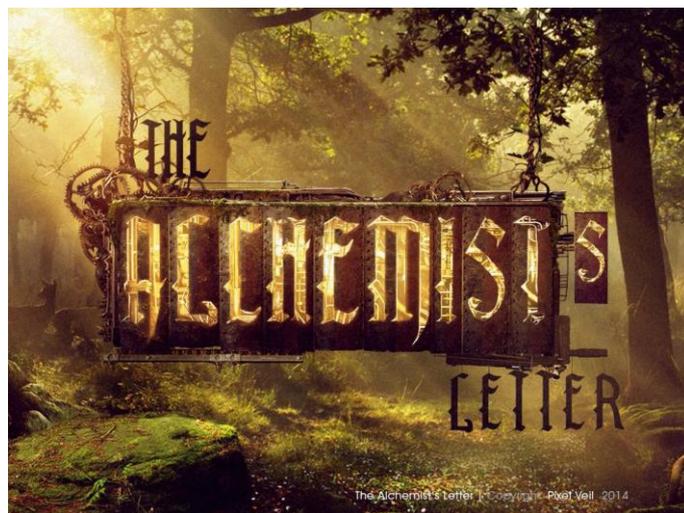

Writing

In English, we would like you to watch a beautiful animated film called [The Alchemist's Letter](#).

Here is the link to the 5-minute video:

<https://vimeo.com/125527643>

An alchemist is someone who attempts to change ordinary metals into pure gold. In this film, a man called Veridan discovers how his own father traded his most precious memories in return for gold.

Once you have watched the film, think about why our memories are so important to us.

Then make a list of your own happiest memories in your home learning book.

Then complete the English worksheet where rather than changing memories into gold, you can change a word into a new word by changing just one letter and creating a word stream.

Guided Reading

We are reading the **Roald Dahl** book **Fantastic Mr Fox**.

Please read **Chapter 13** called '**Bunce's Giant Storehouse**' from **page 50** to **page 57**. We would like you to **describe Badger**. Please print the **Guided Reading worksheet**. **Circle the adjectives** (describing words) that best describe Mr Badger and then **write a paragraph** to describe both his appearance and his personality.

Spelling

Here are your spellings. Today **rainbow** spell each word, writing each letter in a different colour. **Remember tomorrow is your spelling test, so practise hard today.**

Here are your spellings to learn this week:

sweeter
sweetest
weaker
weakest
stronger
strongest
larger
largest
safer
safest

The strawberry tasted **sweeter** than the **stronger** flavour of the watermelon.

The **weakest** aliens decided it was wise to take the **safest** escape route.

The **strongest** boy was also the **largest** child in the class.

The teacher decided it was **safer** to climb the **larger** ladder.

The **sweetest** drink could always be made **weaker** by adding more water.

Topic - Geography

In Geography today, we are going to be learning about the rivers in the UK.

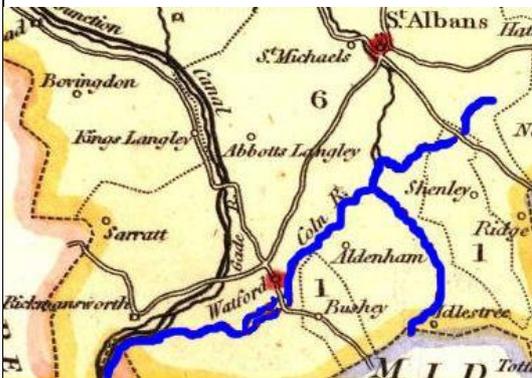

We are very lucky to have many beautiful rivers. Most rivers start as tiny streams in hills and mountains. They grow bigger as they flow downstream. Rivers are very important - humans depend on them for many things; they support an abundance of plants and are important habitats for fish, birds and insects.

In today's home learning, you will find some information about Rivers in the UK. Please read through this carefully. Then, using the map on page 42 of Rivers worksheet to help you, we would like you to complete the Geography worksheet, locating the main rivers in the UK.

This is the River Bain in North Yorkshire

Daily Challenge

In today's home learning, you will find a word search about UK rivers for you to enjoy.

For an extra challenge, you could also investigate rivers that are local to us. Have you come across any streams or rivers on your daily walks? Find out some information about the rivers you have seen and let us know what you discover.

Stay Active

Challenge yourself with this 11-minute circuit work-out

https://www.youtube.com/watch?v=_97QFX3w1E4

Make time for mindfulness and try this rainbow-breath activity:
